nick@nickfehlinger.com
Brooklyn, NY

I'm a full stack web developer with a love for design. I have a background in theater and comedy and I find that there is just about nothing that the basic tenets of improv doesn't help me with. I love to throw myself into projects in order to find new and unexpected ways to solve problems and expand on ideas

Bootstrap • SASS • Javascript
Ruby • Rails • Sinatra • SQLite3
Photoshop • Illustrator • InDesign

Work Experience

Bartender

Manchego	01/17 - 05/17
Union Square Events	09/15 - 05/17
Sonnier & Castle	10/14 - 05/17

- Worked in close knit catering and restaurant teams with clearly defined roles to ensure that customers and clients always had their every need attended to.
- Adapted quickly from day to day dealing with everything from small 25 person parties to large 2500 guest conferences.

Research Associate

REIS	08/12 - 10/13

- Maintained relationships with real estate agents all across the country to obtain information about properties and listings.
- Placed 200-250 outgoing calls per day resulting in 70-90 surveys.
- Used in-depth research skills to discover new real estate agents and properties around the country.

Fundraiser

Greenpeace	04/09 - 07/11
MASSPIRG/NYPIRG	04/04 - 10/08

- Recruited new donors and built volunteer communities to maximize lobbying power of grassroots organizations.
- Fostered and nurtured relationships with high-value donors and worked to find new ways to keep them excited about their involvement.
- Managed and coordinated teams of fundraisers and established acheivable goals for constant growth with positivity grounded motivation.

Web Experience

GIGANTIC
github.com/nickfehlinger/GIGANTIC

- Management tool for freelancers and contractors to manage a monthly budget on an irregular payment schedule.
- Users enter in a budget and add gigs to the calendar. GIGANTIC automatically adds up hours and pay and informs users how close they are to meeting their budget.
- Built on Rails with SASS, JavaScript, and Bootstrap. Gems/APIs: simple_form, devise, full_calendar, Google Maps, charts.js.

Fleet
github.com/nickfehlinger/Fleet

- Travel planning app for groups allows people to contribute suggestions for group travel
- Users create groups with specified dates, suggest locations, and add events to a group calendar.
- Built on Rails with SASS, JavaScript, jQuery. Gems/APIs: devise, full_calendar, Acehopper.

Scratch
github.com/nickfehlinger/scratch

- Cooking blog to inspire home chefs to build their food from the ground up.
- Users add, comment on, or like posts with most popular posts being displayed on the front page.
- Built on Rails with SASS and JavaScript.

Float Like A Butterfly Sting Like A Jukebox
github.com/nickfehlinger/Soundcloud-Jukebox

- Interactive Jukebox featuring 10 different remixes of Crazy Town's Butterfly.
- Music sourced through Soundcloud's API.
- Built on HTML CSS and JavaScript.
